Weiqi Wang

IT Systems & Infrastructure Specialist | AI/ML Integration

lionelwwq@gmail.com | linkedin.com/in/weiqi-wang-86bb07171 | lionelwwq.github.io

Richmond, BC, Canada | (778) 865-6808

IT Systems & Infrastructure Specialist with a Master's in Cybersecurity and 3+ years of experience. Expert in building AI-powered enterprise applications (OpenAI GPT function calling, self-learning chatbots, intelligent email automation). Proficient in full-stack development (Node.js, Express, MySQL), cloud infrastructure (AWS), cybersecurity, and EDI/API integrations. Built a 68-page ERP system with 300+ API endpoints and AI-driven features from scratch.

WORK EXPERIENCE

IT Systems & Infrastructure Specialist — May 2025 – Present

Amax Leather Canada Ltd & Aurora Furniture MFG | Delta, BC

- Built full-stack ERP & Report System from scratch (68 pages, 300+ REST APIs, 4 MySQL databases, 24 route files)
- Developed **AmaxBot AI Assistant** with GPT-4.1-mini, 20+ function-calling tools, self-learning feedback loop, NL-to-SQL, and conversation memory
- Built **AI Email Auto-Responder** with IMAP monitoring, GPT-powered auto-replies, and training mode that auto-drafts KB articles
- Implemented **AI Knowledge Base** with bilingual (EN/ZH) support, fulltext search, OpenAI embeddings, and RBAC
- Developed QuickBooks Connector with auto-sync, CSV export, pre-sync tax/payment terms, and audit trail
- Built PDF engine via Puppeteer for invoices, packing slips, SO confirmations; managed servers and EDI/API integrations

System Administrator — Aug 2022 – Apr 2025

Amax Leather Canada Ltd | Delta, BC

- Maintained servers, AWS cloud infrastructure, and Google Workspace; built JS dashboards and OpenAI-integrated tools
- Implemented cybersecurity practices (DNS/email protection, security audits); developed responsive websites

Website Developer — May 2022 – Mar 2023

Perfect Decor | Burnaby, BC

- Redesigned web presence for multiple clients using modern frameworks; built scalable web applications
- Created high-quality visual content and enhanced UX/UI to elevate brand image
