Weiqi Wang

IT SYSTEMS & INFRASTRUCTURE SPECIALIST

lionelwwq@gmail.com | https://www.linkedin.com/in/weiqi-wang-86bb07171
Richmond, BC, Canada | (778) 865-6808

Motivated IT Systems & Infrastructure Specialist with a Master's in Cybersecurity and a Bachelor's in IT, offering 3+ years of professional experience. Expert in building AI-powered enterprise applications (OpenAI GPT function calling, self-learning chatbots, intelligent email automation). Proficient in full-stack development (Node.js, Express, MySQL), cloud infrastructure (AWS), cybersecurity, and EDI/API integrations. Built a 68-page ERP system with 300+ API endpoints and AI-driven features from scratch.

Work Experience

IT SYSTEMS & INFRASTRUCTURE SPECIALIST May 2025 – Present
Amax Leather Canada Ltd & Aurora Furniture MFG | Delta, BC

- Built full-stack ERP & Report System from scratch (68 pages, 300+ REST APIs, 4 MySQL databases, 24 route files)
- Developed **AmaxBot AI Assistant** with GPT-4.1-mini, 20+ function-calling tools, self-learning feedback loop, NL-to-SQL, and conversation memory
- Built **AI Email Auto-Responder** with IMAP monitoring, GPT-powered auto-replies, and training mode that auto-drafts KB articles
- Implemented **AI Knowledge Base** with bilingual (EN/ZH) support, fulltext search, OpenAI embeddings, and RBAC
- Developed QuickBooks Connector with auto-sync, CSV export, pre-sync tax/payment terms, and audit trail
- Built PDF engine via Puppeteer for invoices, packing slips, SO confirmations; managed servers and EDI/API integrations

SYSTEM ADMINISTRATOR Aug 2022 – Apr 2025
Amax Leather Canada Ltd | Delta, BC

- Managed and maintained server-class systems, ensuring optimal performance and reliability
- Maintained AWS cloud infrastructure, Google Workspace; built JS dashboards and OpenAI-integrated tools
- Implemented cybersecurity practices (DNS/email protection, security audits); developed responsive websites
- Edited and integrated APIs and EDIs to streamline system processes and improve data flow across platforms

WEBSITE DEVELOPER May 2022 – Mar 2023
Perfect Decor | Burnaby, BC

- Designed and developed custom websites and large-scale web applications for a variety of clients
- Created visually appealing images to support and elevate site aesthetics
- Enhanced and updated sites with new features to ensure user-friendliness and modern design standards

Core Skills

OpenAI GPT (function calling, embeddings), self-learning chatbots, NL-to-SQL, AI email automation, ML phishing detection, Node.js, Express, Python, Flask, REST APIs, MySQL, Puppeteer, IMAP/SMTP, JavaScript, HTML5, CSS3, Bootstrap, i18n (EN/ZH), AWS, Google Workspace, Windows/Linux servers, network security, ethical hacking, DNS/email protection, RBAC, OTP 2FA, EDI, QuickBooks, ERP/WMS, Excel automation, node-cron.

Education

Master of Science in Cybersecurity Jan 2024 – Dec 2024
New York Institute of Technology – (GPA: 3.74)

- Engaged in advanced studies focusing on network security, cryptography, and ethical hacking
- Demonstrated capabilities in designing robust security protocols, mitigating vulnerabilities, and deploying multi-layered defense strategies

Bachelor of Information Technology Sep 2017 – Dec 2022
Kwantlen Polytechnic University – (GPA: 3.26)

- Completed CO-OP semesters with a GPA of 3.8 in major courses during the final two years
- Relevant coursework: Web Application Development, System Development Project, Object-Oriented Software Engineering, Advanced Web App Development, Website and Cloud Security
