

IT systems and infrastructure engineer with an **MSc in Cybersecurity**. Four years running the servers, network, cloud and security of two furniture manufacturers, now **sole engineer** of the ERP, EDI and automation platform they run the day on.

EXPERIENCE

May 2025 – Present	IT Systems & Infrastructure Specialist Amax Leather Canada Ltd. & Aurora Furniture MFG · Delta, BC · reporting to executive management Platform — Built and run the ERP behind both companies: 1,048 REST endpoints, 274 MySQL tables, 150 pages, ~230,000 lines in production, bilingual EN/ZH, on an overseas database with a local read mirror. AmaxBot — In-house AI assistant, queried in plain English: 55 function-calling chat tools, 27 email commands over a 3,300-line IMAP service, tool catalog filtered by role before the model sees it. Integrations — EDI over SOAP with trading partners — POs, acknowledgments, ASNs, invoices — and an accounting hub of 6 connectors and 42 APIs; every push idempotent on document number, tested in Postman. Inventory — Fishbowl administration and location-group logic, zone consolidation across warehouses, XML packing slips, labels and BOLs, and scheduled exports for tax and reporting. Infrastructure — Windows and Linux servers, internal FTP, wired and wireless networking across office and warehouse sites, AWS, Google Workspace and Microsoft 365, and hardware redeployed between departments. Security — Vulnerability and access audits, patching, offsite SQL backups, DNS and mail hardening, VirusTotal-backed phishing screening, and 124 role-based permission checks with 2FA and audit logging. Web & support — Corporate sites, partner portals and JavaScript dashboards; Python automation, documented workflows, onboarding and troubleshooting for Sales, Operations, Accounting and Warehouse.
Aug 2022 – Apr 2025	System Administrator Amax Leather Canada Ltd. · Delta, BC Servers — Windows and Linux hosts, virtualization, storage, backup and restore. Network — FortiGate firewalls, VPN, switching and Wi-Fi across office and warehouse sites. Workspace — Google Workspace and DNS: accounts, groups, shared drives, mail routing, SPF, DKIM, DMARC. Cloud & web — Company websites and internal applications on an AWS footprint of EC2, S3 and IAM. Integrations — Built the API and EDI links between the warehouse, trading partners and internal databases. Security — Hardening, patching, vulnerability scanning, access reviews, phishing defence, incident response.
May 2022 – Mar 2023	Website Developer Perfect Décor · Burnaby, BC Client builds — Custom sites and large-scale web applications end to end, from layout and imagery to launch. Store revisions — Rebuilt client sites and web stores with new features and responsive redesigns for mobile.

SELECTED PROJECTS

Dealer Portal	Dealer-facing catalogs, price lists, branding and photo-upload claims; every query tenancy-scoped.
Warehouse Docs	Eight document types with Excel and PDF generation, five email flows and timber-legality compliance, off one order hub.
Site Infrastructure	Network topology, camera-coverage and expansion diagrams; CCTV archive automated into cloud storage.
Phishing Screen	Gmail-integrated link and attachment scoring through VirusTotal, verdicts logged to a review sheet.

CORE SKILLS

Languages	JavaScript (ES2020+), Node.js, Python, SQL, XML, HTML5, CSS3, Bash / PowerShell
Backend	Express, REST API design, services & scheduled jobs, IMAP & SMTP, SOAP & EDI, Postman, Puppeteer
Front End	Vanilla-JS SPA architecture, shared design system & component CSS, Bootstrap, bilingual i18n (EN/ZH), PWA
Data	MySQL schema design, query optimization, read-mirror replication, caching, backup/restore, Fishbowl, Excel & CSV
AI	LLM function calling, role-scoped tool catalogs, embeddings & hybrid retrieval, NL-to-SQL, OCR, prompt design
Infrastructure	AWS (EC2, S3, IAM), Windows & Linux administration, Google Workspace, Microsoft 365, PM2, monitoring, backups
Security & Network	RBAC, OTP / 2FA, session & CSRF handling, SPF/DKIM/DMARC, FortiGate, VPN, DNS, auditing, incident response

EDUCATION & CERTIFICATION

Dec 2024	Master of Science in Cybersecurity · GPA 3.74 New York Institute of Technology — network security, cryptography, penetration testing
Dec 2022	Bachelor of Technology in Information Technology (CO-OP) · 3.8 GPA in major Kwantlen Polytechnic University — web application development, IoT, website & cloud security

Certifications	AWS Cloud Foundations · Fortinet FortiGate 7.6 Administrator · Fortinet Google Cloud Security 7.6 Administrator · Fortinet Certified Associate Cybersecurity 1.0 · Fortinet Cybersecurity 2.0
